

Ubtech Jimu Robot Meebot Kit

Overview:

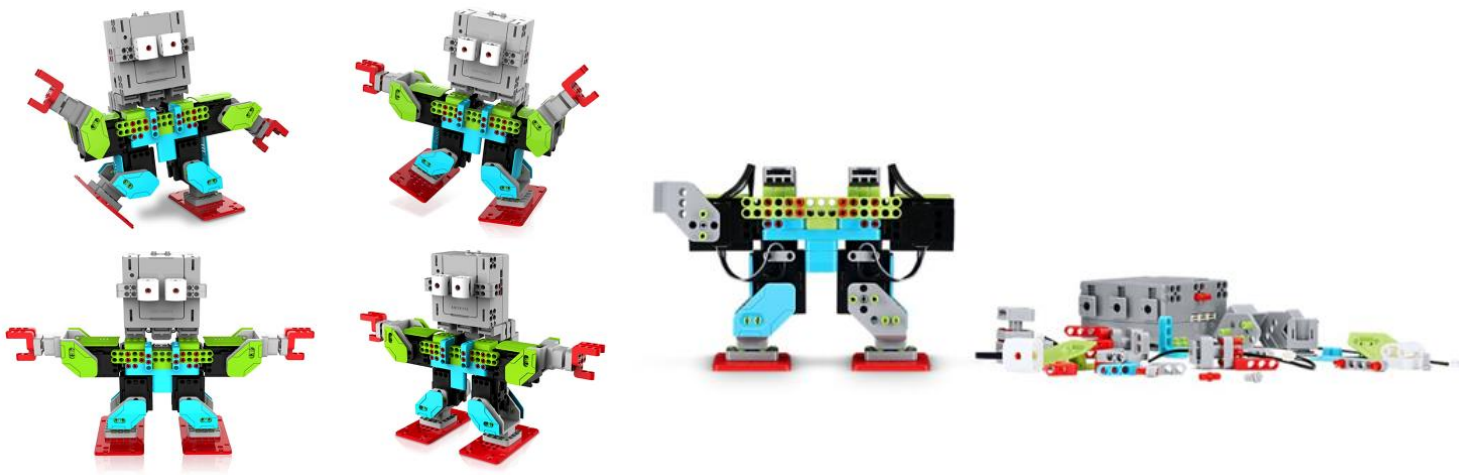

Create a humanoid robot that's uniquely yours with Ubtech's Jimu Robot Meebot robot kit—and program it with the free Jimu Robot app on your iPhone or iPad. The kit's six robotic servo motors give your robot smooth, life-like movement. And an amazing array of interlocking pieces snap together to build pre-designed animal characters or anything else you can imagine.

Use the easy-to-follow 3D animated instructions on the Jimu Robot free app to build your MeeBot. Then employ the app's intuitive programming function to devise an endless sequence of actions for him. When you're done, you can capture photos or videos of MeeBot in action and share them with the JIMU Robot Community where you can see and “like” other robotic creations from Jimu Robot enthusiasts around the world.

Technical Specifications:

- Other Features: Batteries Required, Bluetooth
- Connections: Wireless
- Bluetooth Compatibility: Bluetooth 4.0
- Power Source: AC
- Batteries: Rechargeable Lithium-Ion

Highlights:

Six robotic servo motors deliver life-like movements.

Interlocking pieces snap together without tools to create pre-designed characters or your own designs. App-based 3D building instructions with a 360-spin feature for fast, fun construction of pre-designed characters.

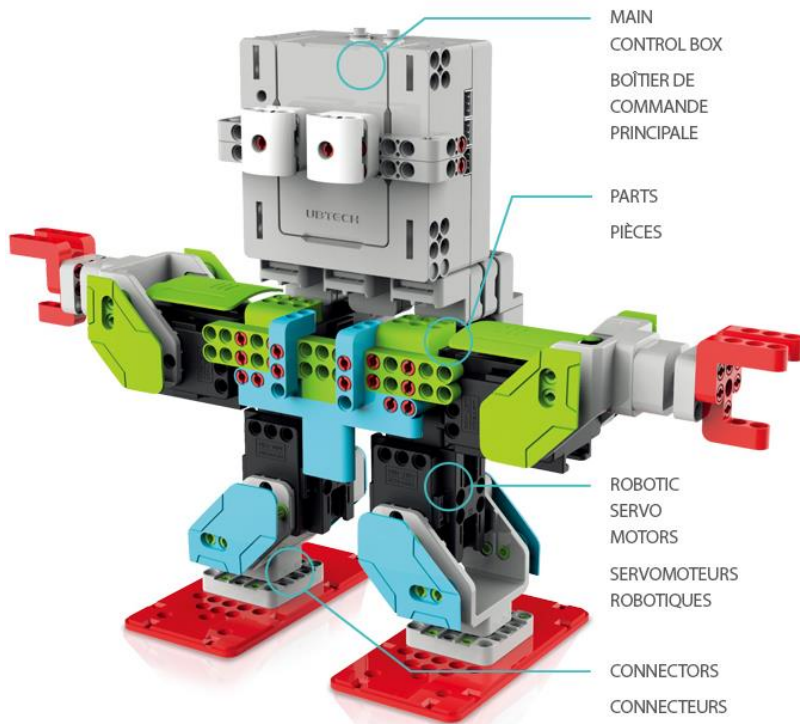

Intuitive programming that animates your robotic creation.

Use pre-programmed actions or program your own by simply posing, recording, and playing back movements.

Upload and share photos or videos of your robot's antics with the Jimu Robot community.

Jimu Robot enthusiasts around the world can "like" and be inspired by other robotic creations.

Recommended for anyone age eight or older.

The free Jimu Robot App features:

- Easy-to-follow 3D illustrated building instructions
- Pre-programmed actions for you to select from or make your own movements
- Remote control mode via Bluetooth connection to your iPhone or iPad
- Web-based Jimu community sharing

Apple Recommends For:

Building and programming your own robot using easy-to-assemble components and the app on your iPhone or iPad.

What's In The Box:

- Six smooth-motion robotic servo motors.
- 201 snap-together interlocking parts and connectors.
- Main control box.
- Long-life, quick-recharging Lithium-ion battery.
- Recharging power adapter.
- Free Jimu Robot app.
- Quick start guide.
