

Car Radio Pioneer Model: AVH-A205BT

Description:

Double-DIN DVD Multimedia AV Receiver with 6.2" WVGA Touchscreen Display, Built-in Bluetooth®, and Direct Control for iPod/iPhone.

Features:

Unparalleled Entertainment Value:

Pioneer's new multimedia receivers offer greater value with the AVH-A205BT and AVH-A105DVD. Packed with nifty features like enhanced USB media support, and being highly customisable to users' individual preferences, these entertainment workhorses will transform your drives into enjoyable journeys.

User-Friendly And Versatile:

Pioneer has redesigned the graphical user interface for even simpler, and more user-friendly operation. Each icon is bigger for easy operation. Support for the ubiquitous Media Transfer Protocol ensures greater compatibility with more devices.

Superior Customisability

Superior Customisability:

An upgraded 13-band graphic equaliser, plus advanced settings from crossover to time alignment can dial in the sound signature of the receiver closer to your listening preference. There are five user-selectable wallpapers and adjustable RGB illumination to add that extra touch of personalisation.

Design Sophistication:

New to this range is Pioneer's Prism design, incorporating a subtle blue backlighting and chrome accent, which injects a refreshingly modern look and feel to both models.

Clear Type Resistive Touch Panel:

Enjoy superb visual clarity under bright daylight conditions with wider viewing angles. The high touch sensitivity is on par with a capacitive screen.

Bluetooth®:

For hands-free calling and music audio streaming. File Browsing can be used through AVRCP 1.5 version of Bluetooth. You can easily search songs in the browsing display. The AVH-A205BT also comes with Direct Bluetooth switching for drivers to quickly toggle between Bluetooth smartphones.
