

# LED Digital Bed-lighting Sensor Strips Warm White

## Features:

### **Responds to your needs:**

Getting up at night becomes effortless with light designed to turn on and off when you need it.

### **Easy setup No tools required:**

Installed in few minutes with a few easy steps. Ready to attach with 3M adhesive tape.

### **Low energy:**

LED consumes up to 7.5W to produce the same light as up to 25W incandescent bulb.

### **Feeling safe at night:**

As your foot touches the floor, the room is softly illuminated to guide you gently and safely through the room.

### **Long life time:**

LED last up 10 years based on average activation of 1 hour per day.

### **Thoughtful lighting:**

A warm soft glow of light, where you need it, when you need it, with no disturbing glare to wake others and no fumbling to find the light switch in the dark.
