

X6 Dazzle Colour Phantom CPU Cooling Fan White

Model:CD1225L12FA

Description:

Cooling fan at the back of the case after the heat flow, make the cold air to the lower part of front panel into the chassis, internal form for convection environment, internal environment temperature, lower case effectively achieve chassis cooling effect.

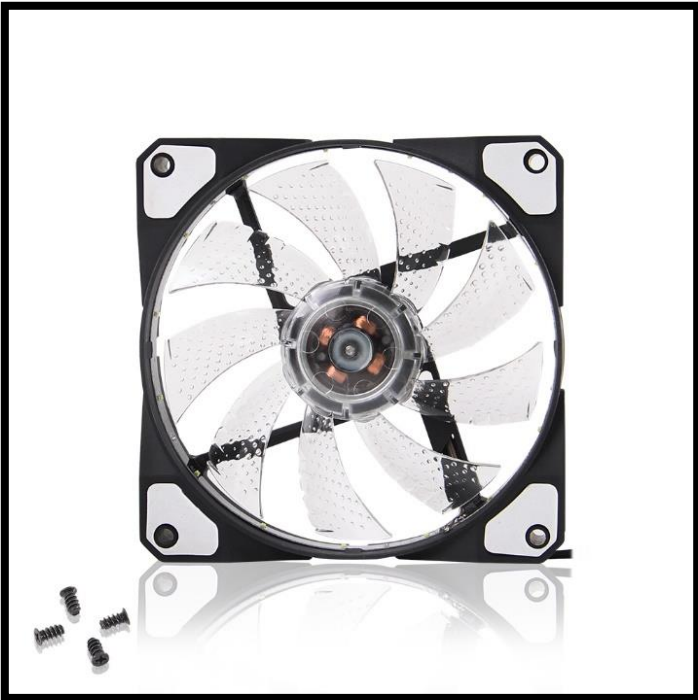

Features:

- Innovation invention patent gold content is highest.
- The quality and the most practical most.
- The traditional "Cool - button" technology.
- Professional, eshoo of single turbo air distribution design applications.
- Passive cooling and active cooling the best heat dissipation structure.
- Weight the most light, the working procedure strictly, manufacturing precision of practical style.

Specifications:

- Current Rating: 180mA
- Rated Voltage: DC 12V
- Rated Speed: 2100RPM
- Service Life: 26000H
- Noise: 25db
- Color: White
- Fan Size: 12x12x2.5cm
- Hole Distance: 10.5cm
- Weight: 130g
