Temperature Sensor PT100 Surface Type 5M

Model:WZP-035

Features:

- Waterproof and corrosion resistant.
- Fast frequency response.
- Stable performance.
- Shell: Made of 304 stainless steel, Flat head design, greater temperature sensing area, long lasting.
- Lead: Outer PTFE waterproof and anti-corrosion, Inner shield design, Signal more stable.

Specifications:

- Hole Size: 5mm
- Type: PT100
- Terminal Contact: 3 Wires
- Measuring Range: -50℃ ~ 350℃
- Cable Length: 5 Meter

Made in China
