

DC Diaphragm Water Pump Micro Motor

Model: R385

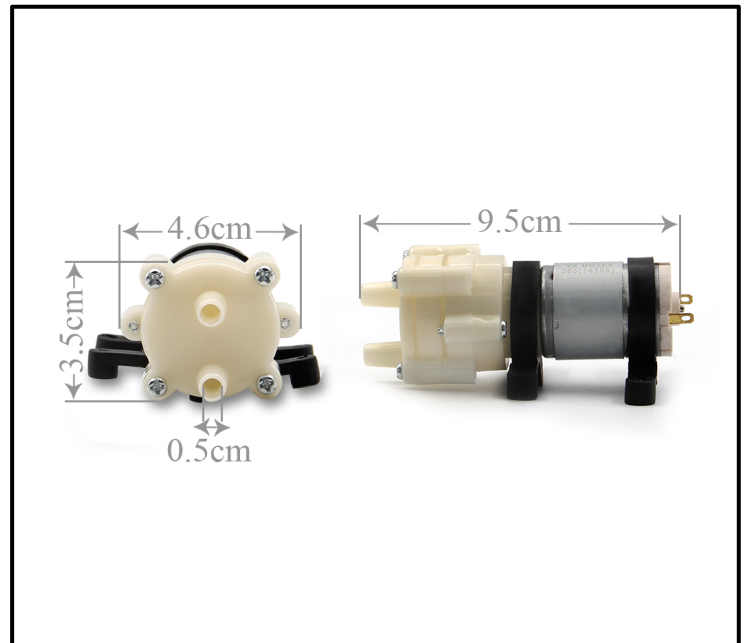

Description:

This is a R385 DC diaphragm pump. It can be used in all kinds of watering devices and fish tank pumps. Large flow, low noise.

Specifications:

- Voltage: 6-12v DC
- Current: 0.25A
- Power: 3W
- Flow rate: 1.8L \pm 0.1L/min
- Outlet diameter: Inner 6mm, Outer 9mm
- Head: up to 5M
- Continuous working time: 120Hrs
- Life span: up to 2500Hrs
- Working water pressure: 0.3Mpa
- Applicable water temperature: +5°C~+45°C

Made in China
