

## Total Wood File Set 200mm

**Model: THT918326**

### Description:

The TOTAL THT918326 set includes three files made of steel grade T12 and designed to work with wooden surfaces. The length of the working part of each file is 200 mm, while the shape of the working surface varies from flat rectangular and semicircular to round. The convenient thermoplastic rubber handle allows you to securely hold the tool in your hand.

### Features:

- The handle fits well to make you feel comfortable when working long.
- The sharp surface makes it easy to wear.

### Specifications:

- Material: Steel T12
- Length: 200mm
- Includes: 1 flat wood file, 1 semi-circle file, 1 round file.
