

# ***Video Camera Tripod Professional Hydraulic Head Magnesium Alloy Model:KH25N***

## **Description:**

The Benro KH25N Video Tripod Kit is ideal for compact digital video cameras, HD SLRs, and still cameras with long lenses weighing up to 11 lb (5 kg). This tripod replaces the popular AD71FK5 model and features an improved leg locking system and an improved fluid pan and fluid tilt head.

The KH25N features a 60mm bowl and head-mounted bubble level to ensure proper alignment for accurate camera placement and level panning. An interchangeable pan arm allows both right and left-handed use. The sturdy and lightweight tripod extends from a minimum height of 28.9 in (73.4 cm) to a maximum height of 61.0 in (155 cm) allowing you to handle the camera comfortably. Twist-lock levers on the dual stage leg system allow you to make specific height adjustments rapidly and easily. The tripod can be folded to a length of 30.5 in (77.4 cm) making it easy to transport. A padded soft case is included at no extra cost.

## **Specifications:**
