

Notebook Holder DJ

Description:

The Laptop Stand is the ideal choice for DJs and promoters, who want to set their laptops (or DJ controller, mixer) to eye level. Due to its rubberized contact surfaces and the sturdy steel construction, it offers the perfect setting in the DJ booth or the home studios. Additional rubber linings on the feet ensure that the stand does not slip even with hard shakes. The adjustable height (5 levels of 16.5 to 25.5 cm) ensures optimal adaptation to your needs.

In addition, the width of the stand can be adjusted in 3-steps. So it can be individually adapted.

Another storage area offers space for additional equipment.

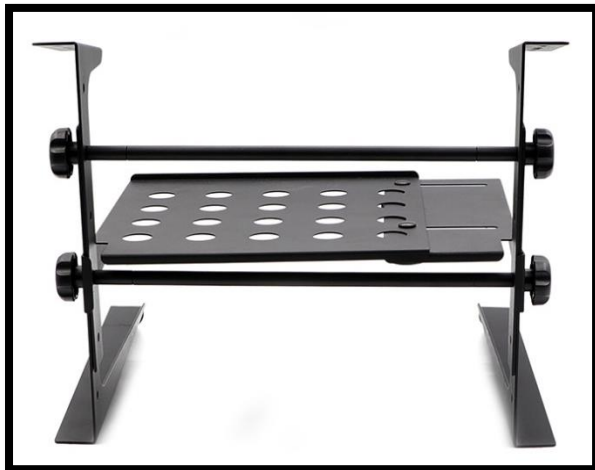

Can be easily placed on a table or work surface. In addition, 2 mounting brackets are included, which can be attached to tables, racks and other work surfaces. It can be mounted horizontally or vertically. For ultimate flexibility on live sets or in the studio.

The Laptop Stand ensures optimal ventilation for your laptop, even in adverse conditions. So your laptop withstands hot concert halls or clubs.

Installing can be easily done. Likewise, the stand can be easily disassembled for a space-saving transport.
