

# Portable Electronic Scale

## Model:742E

### **Description:**

Hanging digital scale with a capacity of weighing 50 kilograms and weighing accuracy of 5 grams, fully portable, automatic calibration, high precision sensor, tare function, stainless steel hook, batteries are included.

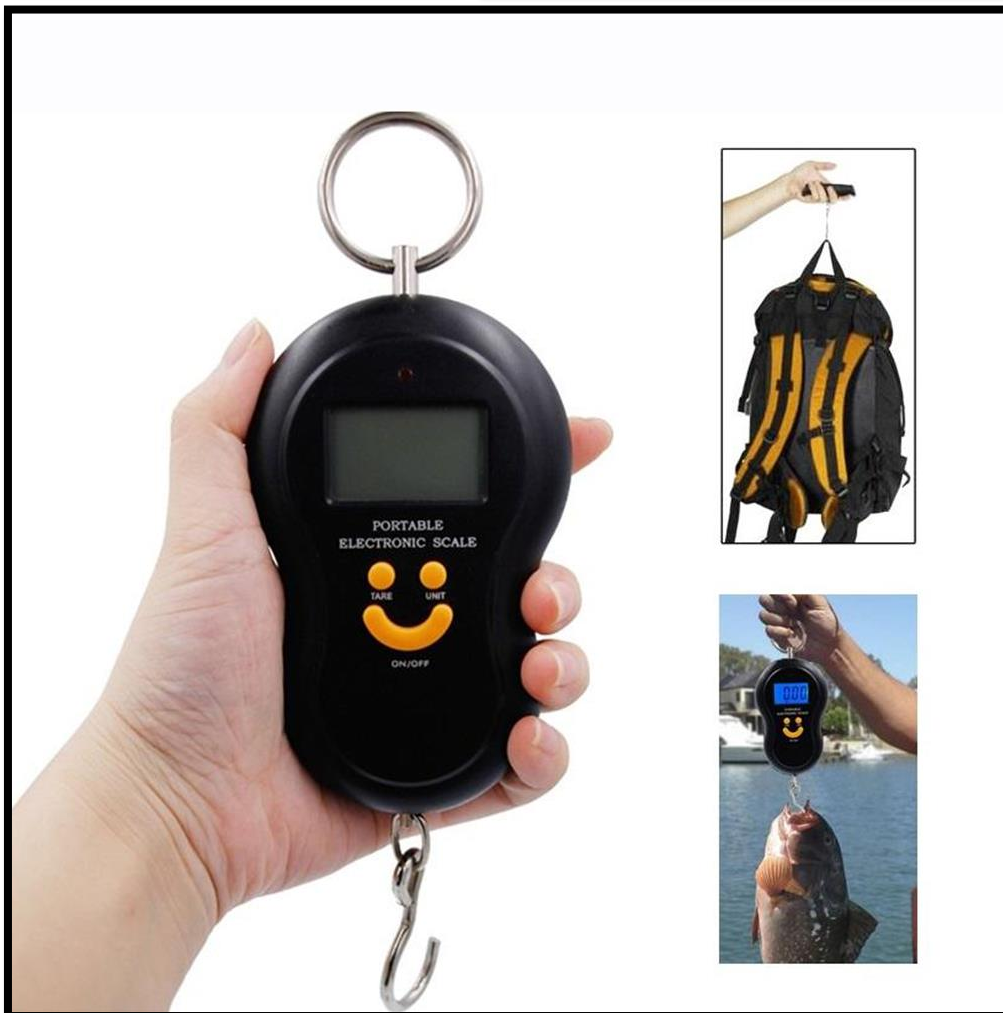

### **Features:**

- Lower power consumption
- Humanized design
- Large capacity and high precision
- Compact size and easy to carry

### **Specifications:**

- Display Type: Electronic
- Minimum Weight for Measurement: 5 grams
- Maximum Weight for Measurements: 50 kg
- Unit: KG/LB/JIN/OZ
- Measurement Accuracy: up to 0.1 g
- Working Temperature: +10°C~ +40 ° C
- Batteries: AAA 1.5V x 2
- Material: ABS plastic
- Color: Black
- Dimensions: 11.5x7.1cm
