

Universal AC/DC Inverter Air Conditioner Control System

Model: QD-81B

Description:

QD-81B is the latest universal control system for both DC & AC inverter cabinet air conditioners.

Features:

- Control system for cabinet air condition
- Digital temperature display
- Outdoor fan controlled independently
- Accurate & stable temperature control
- Accurate & stable auto fan
- Time on/off
- Sleep function
- Updated receiver, good looking appearance
- Updated transformer, quick plug, easy for installation

Technical Parameters:

- Service power: 13000 - 24000 BTU
- Maximum input voltage: AC240V
- Minimum input voltage: AC180V
- Maximum output current: 20A
- Maximum output frequency: 100Hz

Made in China
