

Balloon LED Flashing Lamp Yellow

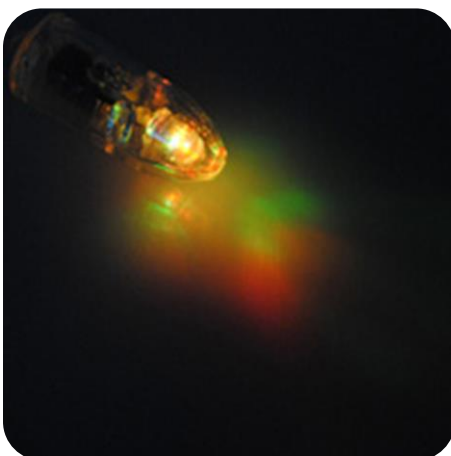

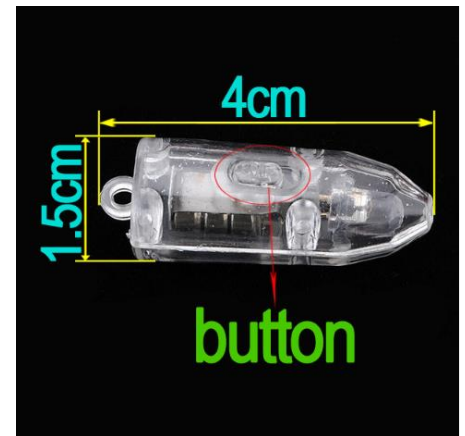

Description:

These excellent unique balloon lights will add a wow factor to any Wedding, Engagement party, Birthday party, Disco, Camping, Barbeque and any other event you can imagine.

They simply go inside the balloon (before you blow it up) and once it is blown up create a great look to a basic balloon by making it glow.

Features:

- Bright LED, power saving, long service life
- Powered by 3 AG10 batteries (included)
- Batteries can be changed
- With a controllable switch, it can fly with helium balloons (balloon must be 10 inches or more)
- With a hole at the bottom, you can thread or hang them
- Two modes:
 - *Steady mode*: the light is always on
 - *Twinkling (flashing) mode*: the light blink (on-off-on-off...)
- Light color: **Yellow**
- Working time: more than 10 hours
- Material: high transparent PS material

Made in China
