

2000Kg x 10M Ratchet Strap

Model:451812

Description:

The Ratchet Shop stocks a wide range of heavy duty ratchet straps, including 2000kg ratchet straps that are designed with ease and convenience in mind. 2000kg ratchet straps can be easily tightened and released using one hand. The webbing is made from soft, yet highly durable, polyester that has a strength rating of 2000kg. This range includes ratchet straps in 4m to 20m lengths; 4m to 20m webbing parts with hooks; and ratchet handles by themselves. 2000kg ratchet straps are used for tying down loads for either transportation or storage to ensure that they are secure. All our ratchets are measured from bearing point to bearing point.

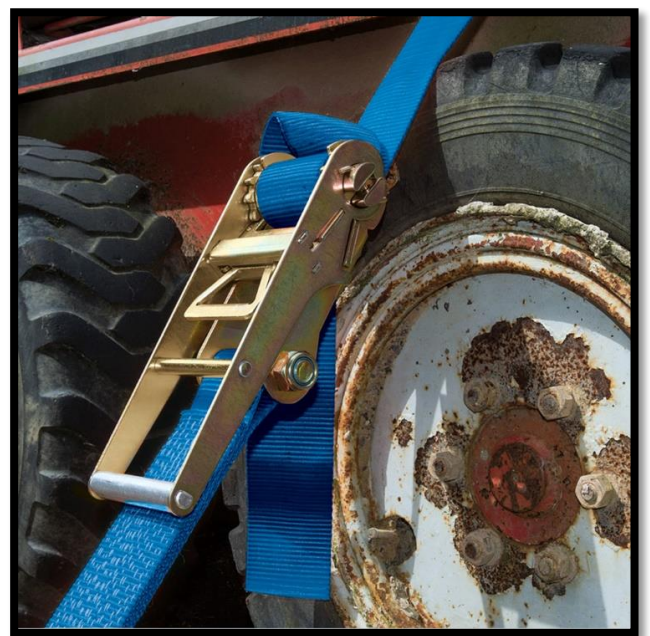

Features:

- ❖ 2000kg rated strength with a minimum break strain of 2500 DAN.
- ❖ Used for securing/lashing and fastening loads.
- ❖ All our ratchets conform to EN12195-2:2001 safety performance requirements.
- ❖ Quick release mechanism for easy use.
- ❖ Produced from 100% polyester material.
- ❖ 2000kg ratchets have a 50mm webbing width.
- ❖ Custom made 2000kgs lashing systems can be produced.
- ❖ Rubber corner protectors are available to protect the webbing.
- ❖ All our Ratchets are measured from bearing point to bearing point.

Specifications:
