

# Extender HDMI Cat5e/6 30M

## **Description:**

The HDMI Extender for CAT-5e / 6 Cables can only extend the 1080p HDTV display to 30 meters using one of the CAT-5e / 6 cables. This adapter not only breaks the HDMI cable's transmission length limitations, but also allows cable construction in the greater flexibility and convenience.

## **Feature:**

- A pair of full-function module, no need to set.
- CAT-5e / 6 cable can replace HDMI cable for long distance transmission.
- Follow the IEEE-568B standard.
- With CAT-6 cable, transmission distance up to 30 meters, 1080p.
- Small size.
- No additional power required.
