

Rework Station + LCD Separator with USB

Model: YX-889A

General Features:

- Complete and compact station
- Soldering Iron
- Hot air blower
- 1 Digital display for blower temperature sampling
- 2 Knob's for adjusting the air blower (Flow and Temperature)
- 1 knob for adjusting the soldering iron temperature
- 2 independent ON / OFF switches
- Support for soldering iron with vegetable sponge
- Support for air blower
- 3 different nozzles for air blower
- Structure with anti-static coating

General Specifications:

- General Power Consumption: ~ 750W
- Weight with packaging: ~ 2800g

Soldering Iron:

Features:

- Soldering iron with anti-static protection
- Knob for adjustment and temperature control in ° C and ° F
- LED for heating and cooling
- Metal base to support soldering iron
- Vegetable sponge for cleaning the tip
- Easy to operate

Specifications:

- Temperature range: 200 ° - 480 ° C / 392 ° - 896 ° F
- Power soldering iron: 50W
- Output voltage: 24V
- Used for soldering and desoldering of SMD components
- Ceramic resistance 48W / 24 VAC - Grounded and interchangeable

Hot Air Blower:**Specifications:**

- Hot air temperature: 100 ° C to 450 ° C
- Power consumption: 550W
- Airflow: 0.3 - 120 L / min adjustable
- Pump power: 45W
- ESD Safe
- 3 Nozzles of different sizes: ø 5,0 - 7,0 - 10,0mm

Made in China
