

Concrete Wall Cutting Machine with Vacuum and Laser

Model:K1331

Product Specifications:

Product number	K1331	Slice specification	133x20x4.5mm
Rated voltage	220V	Cutting ability	42mm
Rated frequency	50Hz	Bare metal weight	6.2Kg
Rated power	2700W	Product Size	48*24cm
Load power	550W	Product Usage	Wall slotting
Maximum speed	8000r/min	Wire length	3 meters

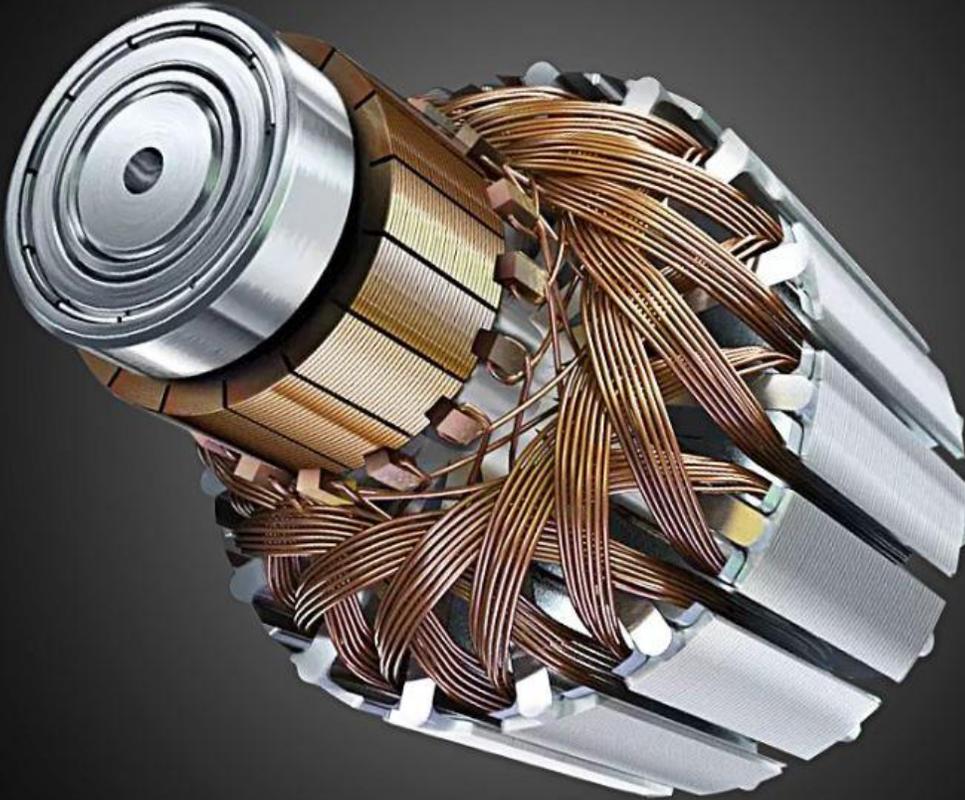

Physical Description:

More Product Details:

High-power copper wire motor

Fast heat dissipation, more stable, low power consumption, strong power and greatly reduce noise

Upgrade laser design, reduced cutting errors, and the cutting groove is straighter

Rotatable soft rubber handle

180° rotating handle can meet different work types

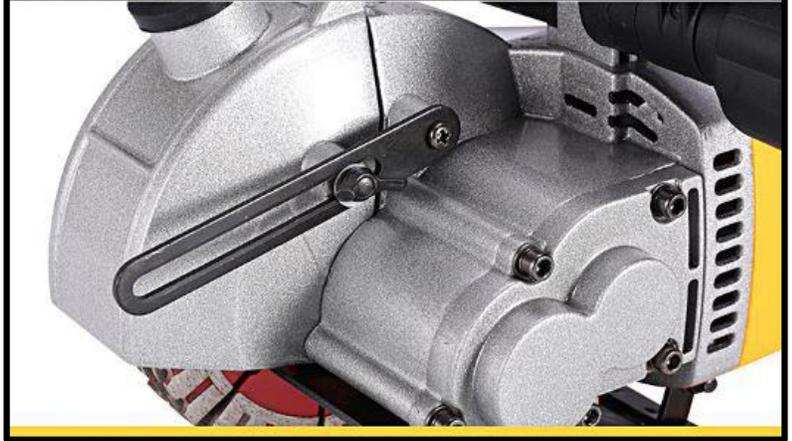

Vertical grip

Lateral grip

Soft start design

The machine starts from slow to fast, effectively extending the life of the motor

Aluminum alloy head

Washable, not easy to damage, longer service life

Anti-slip hand paste design

Ergonomic design, bumpy surface for comfort

Made in China
