

220V to 110V Single-Phase Transformer 2000W

Model: TM888-2000VA

Features:

- **Wall mount design** - You can save space and better prevention for children to reach
- **Steel material** - abrasive non-slip design, real flame-retardant material
- **Smooth edges** - eight smooth corners for smooth handling, stylish appearance, and does not hurt the hand and skin
- **Switch design** - latest design with power switch, working status indicator, safe and convenient
- **Cooling function** - with vents on both sides, to spread out the temperature of the transformer during operation, longer life and less heat

Specifications:

- Input voltage: 220V~250V
- Output voltage: 100V~120V
- Rated power: 2000VA
- Rated frequency: 50Hz/60Hz
- Size: 20cmx15cmx9cm

Made in China
