

TV Mood Light led 96lm 1900mm RGB

Model:KNM-ML3RGBD

Description:

Multicolor mood light LED strips to stick on a TV to prevent eyestrain and improve the viewing experience. Watching TV in a dark room can cause eyestrain because the eye muscles continuously contract and relax due to the large difference in light between the dark environment and the TV screen. However, normal room lighting reduces the viewing experience again.

The mood light solves all these problems and at the same time illuminates the TV with light that is dimmable, has an adjustable color and does not reflect in the screen. It consists of three dimmable light strips that are connected with one USB power cable, for many mounting options.

Specifications:

Wattage	2.4W
Input Voltage	5V
Beam Angle	120°
Cut to Size	yes
Dimmable	Yes
Energy Class	A+
Energy Consumption per 1000 hours	2.4kWh
IP Rating	55
Bulb Type	LED strip
LED Module	5050
Light Color	RGB
Number of LEDs	16
Nominal Luminous Flux	96lm
Technology	LED

Housing Material	Electrolytic Copper
Application	TV screen
Accessories	1x CR2032 3V Battery 1x Remote control 1x Adhesive Tape

Made in China
