

## *Sonoff IFan03 WiFi Ceiling Fan & Light Controller*

### Overview:

Looking for a smart switch to easily control the ceiling fan with light being hung on the top? Stop seeking for! SONOFF iFan03 is what you need

iFan03, the new version of iFan02, more stable in performance, which is a Wi-Fi ceiling fan and light controller supported to control the ceiling fan with light using your phone wherever you are

Voice control is designed to make you easily command iFn03 to turn on or off the fan and light, no need any manual operation

Support to control the ceiling fan with light from your phone wherever you are and whenever you want Schedule for it to turn on and off at daytime or nighttime, or anytime throughout the day, and it will turn on or off automatically

Supplied with a RM433 remote controller where you can adjust the fan among the low, medium and high speed for getting different levels of cool feeling

The scenes feature in the app allows you to control one or multiple SONOFF devices, quickly and simultaneously with a single tap.

### Features:

- Remotely control the ceiling fan and light on your phone
- Turn on/off ceiling fan and light using your voice
- Support the RM433 RF to control devices (RM433 RF included)
- Share the device and manage it with your family together
- Display the real-time device status on the app
- The fan speed is optional from the high, medium and low speed (only for RM433 RF)
- Build scenes to control one or more devices connected SONOFF switches via single tap

**Note:** Comes with a RM433 RF remote that can be stored on the base for easy use (the base is not included, sold it separately), which allows you to turn on/off the fan & light and adjust the fan speed from 3 gears.
