

Industrial Water Chiller

Model: CW-6000AI

Description:

CW-6000 industrial Water Chiller of 3000W cooling capacity can be used to cool high-power lasers and high-speed spindles, etc. This industrial water chiller has 2 temperature control modes as constant temperature and intelligent temperature control. Under intelligent mode, the water temperature is adjusted according to ambient temperature. With that 1 key solution, you no longer need to worry about the water temperature adjustment of seasonal changes.

Features:

- One-stop automatic intelligent temperature control: in different environment, user does not need to change setting due to it will automatically switch;
- 3000W cooling capacity; optional environmental refrigerant;
- $\pm 0.5^{\circ}\text{C}$ precisely temperature control;
- The intelligent temperature controller has 2 control modes, applicable to different applied occasions; with various setting and display functions;
- Multiple alarm functions: compressor time-delay protection, compressor overcurrent protection, water flow alarm and over high / low temperature alarm;
- Long working life and simple operation.

Specifications:

- Voltage: 220V
- Frequency: 50Hz
- Current: 1.5~5.5A
- Compressor power: 0.965KW; 1.28HP
- Refrigeration capacity: 10286btuh; 3.015KW; 2592kcal/h
- Refrigerant: R-22/R-410a
- Refrigerant charge: 800g
- Precision: $\pm 0.5^{\circ}\text{C}$
- Reducer: Capillary

- Protection: Overcurrent protection for compressor, flow alarm, over temperature alarm
- Pump power: 0.1KW
- Tank capacity: 15L
- Inlet and outlet: Rp1/2"
- Max. lift: 25M
- Max. flow: 16L/min
- Dimension: 67 x 47 x 89 cm (L x W x H)

Product Details:

Made in China
