

LED Spotlight LSGU 10-220-07 Warm White Model:80219

Features:

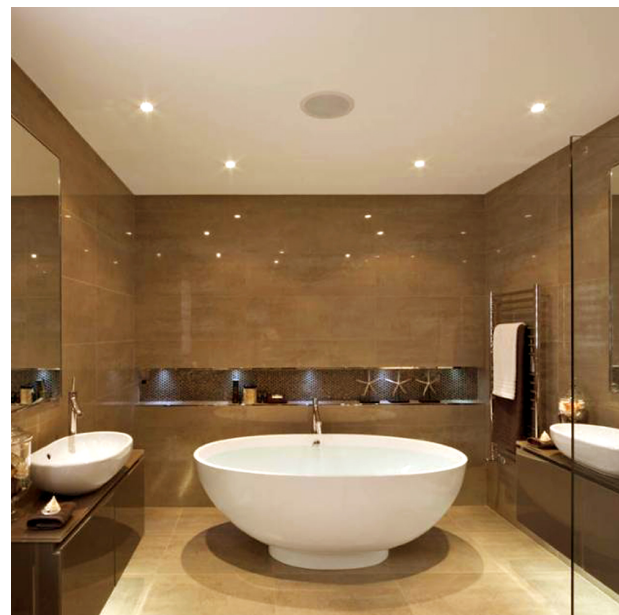

1. Unique heat sinking design.
2. Green environment, impact resistance, shock-proof, no lead, no mercury, no UV, no IR.
3. Input and output constant current drivers work separately, making sure high power LEDs work safety.
4. The power supply prevents from high temperature and short circuit.
5. Long Lifespan, over 50,000 hours
6. 80% ~ 90% energy-saving

Specifications:

Input Voltage	AC 220V
Power	7W
Base type	GU10
LED Qty.	5PCS Epistar SMD
View Angle	120°
Color Temperature	3000K Warm White
Shape	Round
Material	Aluminum
Lumens	560LM
Life Span	30,000h
Working Temperature	-20 ~ +50°C
Dimension	5.3x4.9cm

Applications:

1. Entertainment lighting
2. Architectural lighting
3. City beautification
4. Landscape lighting
5. Furniture decoration
6. Other light sources

Made in China
