

# G403 PRODIGY

Gaming Mouse

## GAMING-GRADE PERFORMANCE.

G403 Prodigy enhances your play with advanced gaming-grade performance in a lightweight, ergonomically designed body. G403 is up to 8x faster than standard mice — which means when the mouse is moved or clicked, the on-screen response is near-instantaneous. Prodigy is equipped with our most advanced optical sensor for superior accuracy, speed, sensitivity and consistency. Designed to fit your hand and style of gameplay with lightweight construction, rubber grips, and a 10 g removable weight. Customisable with up to 16.8 million colours, G403 Prodigy also has an onboard memory so you can take your settings with you wherever you go. With G403 Prodigy, the game gets better and so do you.

## WHAT'S IN THE BOX

- Gaming mouse
- 10 g optional weight
- User documentation

## FEATURES

- Gaming-grade performance – 8x faster than standard mice
- High-precision, 12,000 DPI PMW3366 optical sensor
- Metal spring button tensioning system
- Lightweight, ergonomically designed body
- Customisable RGB lighting with 16.8 million colours

#### SYSTEM REQUIREMENTS

- USB port
- Internet connection for optional software download

#### TECHNICAL SPECS

##### Tracking:

- Resolution: 200 - 12,000 DPI
- Max. acceleration: > 40 G\*
- Max. speed: >300 ips\*

##### Responsiveness:

- USB data format: 16 bits/axis
- USB report rate: 1000 Hz (1 ms)
- Microprocessor: 32-bit ARM

##### Physical specs:

- Length: 124 mm
- Width: 68 mm
- Height: 43 mm
- Weight: 90 g (mouse only) + 10 g (optional weight)
- Cable Length: 2 m

##### Glide:

- Dynamic coefficient of friction\*\*: 0.1  $\mu$ (k)
- Static coefficient of friction\*\*: 0.15  $\mu$ (s)

##### Durability:

- Buttons (left/right): 20 million clicks
- Feet: 250 kilometres

\* Tested on Logitech G240 Gaming Mouse Pad

\*\* Tested on wood-veneer desktop

*Made in China*
