

Orico 4 Ports USB3.0 Hub

Model: MH4U-U3-R1.2

Specifications:

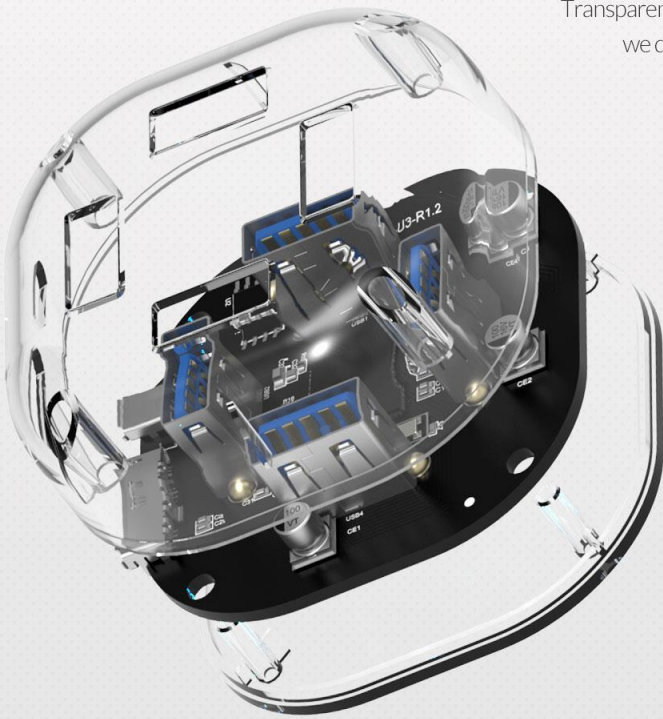

- Output interface: 4* USB3.0 Type-A
- Input interface: Micro USB
- Transmission speed: 5Gbps
- Cable: 100cm USB3.0 Type-A to Micro B
- Supported system: Windows/Mac/Linux
- Dimensions: 75*75*19mm
- Color: Transparent

More Product Details:

The Visible Beauty of Science and Technology

Transparent chassis, visible details
we dare to show the quality
and craftsmanship.

Four Port Expansion

It is convenient to connect all kinds of peripherals
such as mouse, keyboard, external
hard drive, fan, gamepad
and more.

5Gbps Fast Transmission Work Efficiently

Multi-pronged data and power transmission, bring you an efficient working experience.

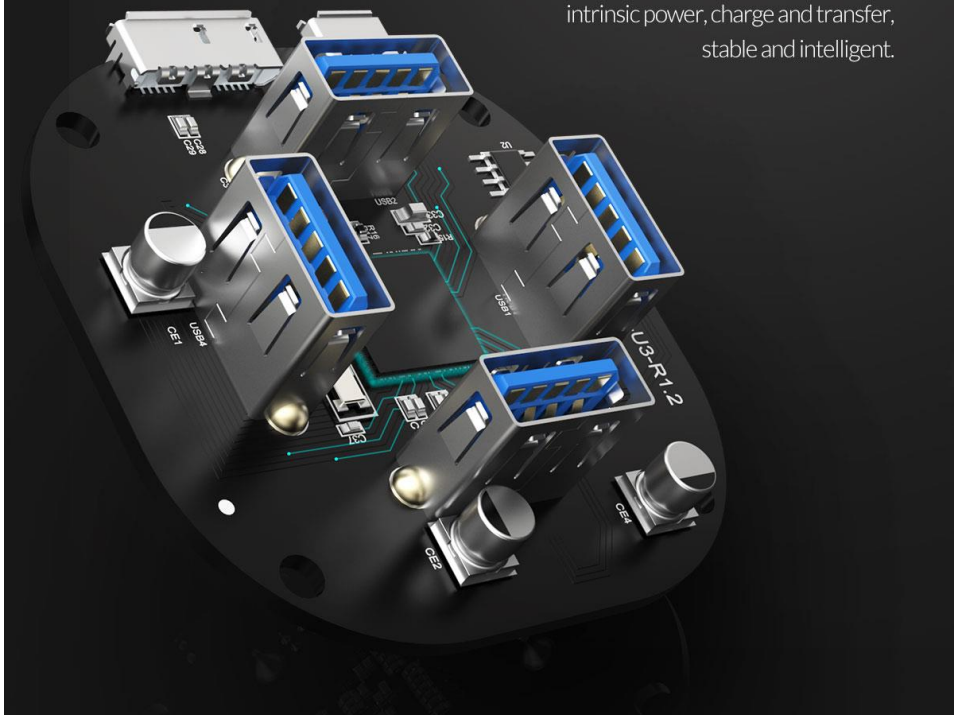

Dual-port Power Supply

Two independent power supply interfaces ensure that large-capacity mobile devices such as large-capacity mobile power banks are transmitted and connected more stably.

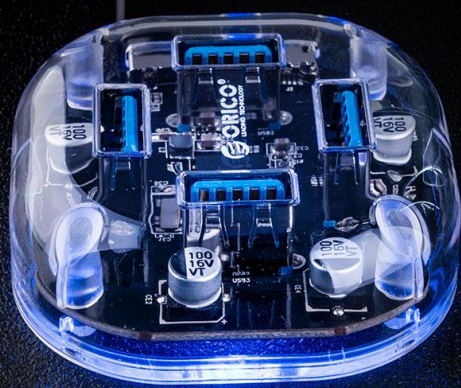

VL817 Main Control Chip Modular Function Optimization

Powered by VL817 intelligent chip, the visible
intrinsic power, charge and transfer,
stable and intelligent.

Special Blue Indicator

When connected, the entire bottom is lit with blue light, which is integrated with
the transparent body. The working state is clear at a glance.
