

## Logitech C200 Webcam

### Overview:

Use **Logitech's C200 Webcam** to chat with friends and family over the internet. The camera has a built-in microphone and attaches to your computer via USB, so there's only one wire to manage. With 30fps 640x480 video capture, people who are chatting with you can see you clearly. The webcam also supports image capture of up to 1.3 megapixels with software enhancement, so you can take quick images saved directly to your computer. The camera makes it easy to keep in touch with people across the street or across the ocean.

### Features:

- **VGA Sensor**

You'll enjoy seeing the people you care about in lifelike color when you talk to them.

- **1.3-Megapixel Photos**

Take snapshots at up to 1.3 megapixels using software enhancement.

- **Built-In Microphone**

The built-in microphone utilizes RightSound technology, providing clear, headset-free conversations without annoying background noise.

- **Logitech Vid**

Logitech Vid software provides free video calling that's fast and easy to use. It's built into your webcam setup, so you're ready to call right away.

- **Universal Clip**

The universal clip attaches securely to LCD monitors and notebooks, or sits on a shelf or desk.
