

Logitech C260 Webcam

Overview:

The C260 Webcam from Logitech is a solid, hassle-free solution for your video recording and online video chatting needs. This webcam captures sharp HD 720p widescreen video at an aspect ratio of 16:9. It features built-in RightLight technology so that your webcam will adjust to low light conditions. Making it great for video calls or IM chatting, the webcam has a built-in microphone with RightSound technology that neutralizes acoustic noise in your background so your conversations sound clear and natural. In terms of video chatting, the webcam is compatible with many IM applications, particularly Skype, Windows Live Messenger, Yahoo Messenger, and AOL Instant Messenger. Beyond video, the webcam can also take snapshot photos at a resolution of 3MP. It's compatible with your Windows PC and is ready for use as soon as you connect it through your computer's USB 1.1 or 2.0 port. A USB 2.0 port is recommended, though.

For getting the most out of your C260 Webcam, you will also receive Logitech's Vid HD software, MAGIX's Photo Manger 9 software, and their Video Easy software. VID HD is great for making easy, hassle-free video calls to your friends while MAGIX's programs allow you to manage and edit you photos or videos.

Features:

- **Widescreen Video Calls**

You'll get widescreen video calling at an aspect ratio of 16:9 on most major instant messaging applications and Logitech Vid HD

- **Snapshots in a Snap**

Camera takes quick, easy snapshots up to 3MP (software enhanced)

- **Built-in Mic with RightSound Technology**

Use the built-in microphone with RightSound technology, which cancels out acoustic noise in your background, making your conversations easier and more natural sounding

- **RightLight Technology**

Even if video calls are made in dim or poorly backlit settings, your webcam will intelligently adjust to produce the best possible image

- **IM Compatibility**

Works with Skype, Windows Live Messenger, Yahoo! Messenger, AOL Instant Messenger, and other popular instant messaging applications

- **Logitech Vid HD Software**

This Logitech software is designed to allow you to quickly and easily make free video calls to your friends or family

- **Free Video Editing Software**

The included MAGIX Photo Manager 9 and MAGIX Video Easy software allows you to organize and edit your photos and movies

- **Easy to Mount**

The universal clip fits laptops, LCD, or CRT monitors
