YAXUN Digital Soldering Station
Model:YX-8034

Description:

YAXUN brand portable and comfortable soldering station with digital temperature control and display, integrates PID control to monitor the tip temperature and adjust it to the configured value in real time to ensure greater precision in soldering operations. Includes support and tip cleaning foam, perfect for long operating times.

Specifications:

- Input Voltage: 100-240V AC (50/60 Hz)
- Power: 60W
- Temperature Range: 180 - 450°C
- Temperature Error: ± 2°C
- Display: Digital LED
- Size: 135x60x35mm

Made in China
