

Tuya WIFI Smart Light Brightness Detection Sensor

Description:

1. Easy to install, sticker to the wall, then connect to with and linkage to smart switch.
2. Sensitive to light. Smooth around, not easy to be bruised.
3. Lighting and brightness sensing linkage smart home, switch, lamp, socket, motor, etc.

Specifications:

Product Name	TUYA WIFI Smart Light Sensor
Protocol	WIFI 2.4GHz
Working Voltage	DC4.5-DC5V
Standby Power	$\leq 0.5W$
Working Current	5uA-496mA
Lighting Range	70-30000LUX
Detection Module	Diode
Working Temperature	-20~85degree
Working Humidity	20% ~ 85%
Storage Temperature	0°C ~ 60°C (32°F ~140°F)
Shell Material	PVC+Sunscreen
Product Size	70*70mm

Package Included:

- 1x Light sensor
- 2x Mounting screws

Detailed Photos

human presence sensor

run/sit/lie down/breath/heartbeat

Powered By

tuya

Intelligence
Inside

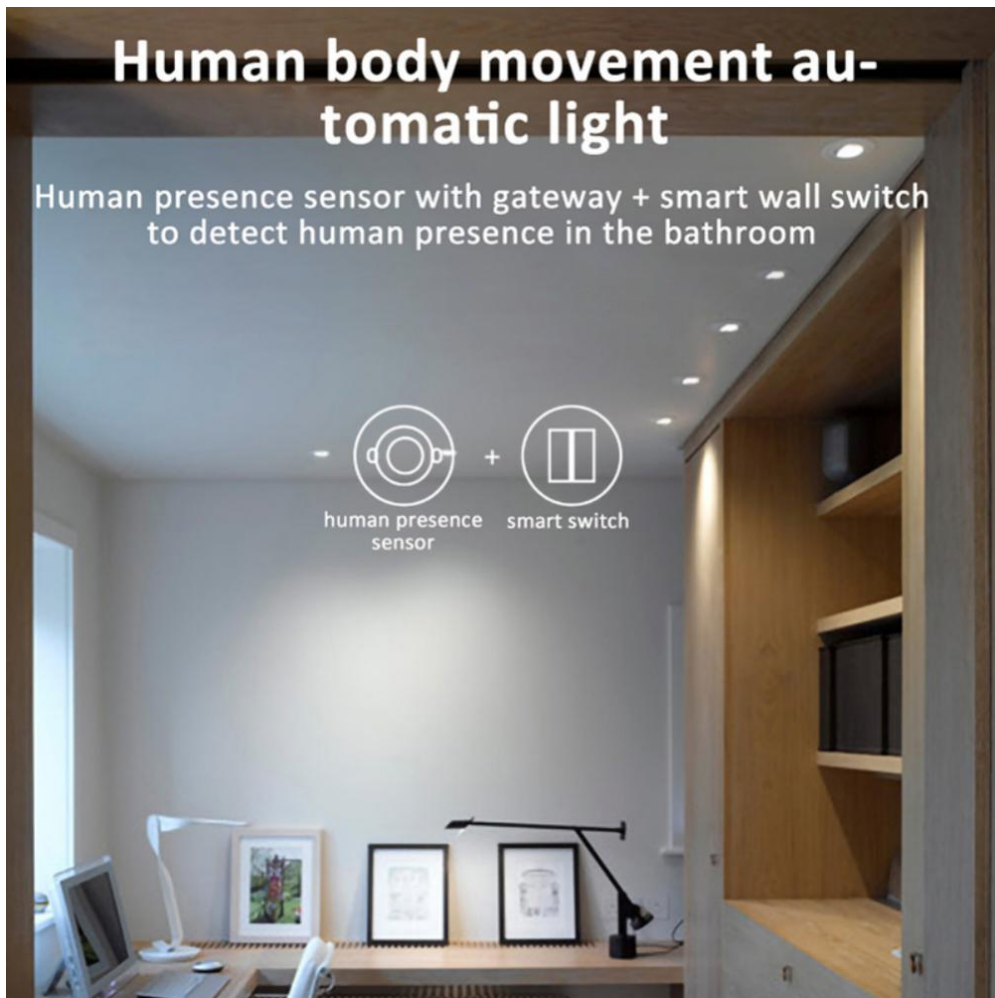

- Existence detection
- Away time detection
- Smart Linked Home
- View status remotely

WiFi

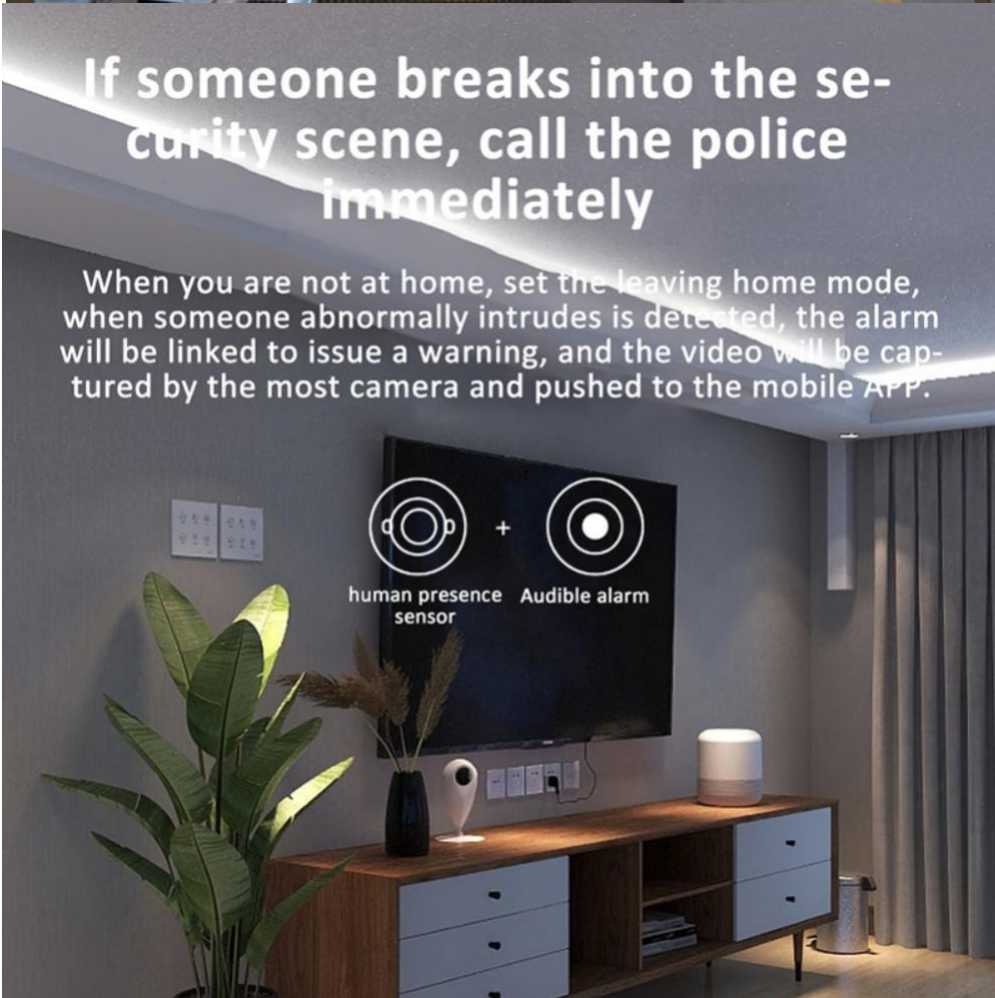

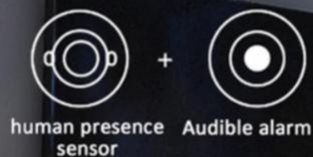

Human body movement automatic light

Human presence sensor with gateway + smart wall switch to detect human presence in the bathroom

If someone breaks into the security scene, call the police immediately

When you are not at home, set the leaving home mode, when someone abnormally intrudes is detected, the alarm will be linked to issue a warning, and the video will be captured by the most camera and pushed to the mobile APP.

Status duration monitoring

Monitoring of the duration of someone's existence | Monitoring of the duration of no one's existence

Power by tuya

Check the duration when no one exists
AI automatic linkage execution
