

Portable Electric Sewing Machine

Model:GK9-710

Description:

This product adopts advanced and reasonable design cam transmission technology. It has the characteristics of fast speed, strong wear resistance, low noise, light weight, good insulation and long life.

Features:

- 2s/bag high performance
- 2600 needles/min sewing speed
- 5000+/bag per day
- Copper core, copper wire durable, high efficiency, low noise, low heat rise.

Specifications:

- Needle Model: GK9 type 230
- Specification of Sewing Thread: 21 2x3 polyester threads
- Stitch Width: 6-11mm
- Sensing Thickness: 0.2-10mm
- Voltage: 36V 220V 15000R / Min
- Power: 190W
- Equipment Material: aviation, insulating plastic
- Equipment Track: single chain
- No - Load Speed: 2600r / min
- Stitch Length: 10mm
- Product Thickness: 6 - 9mm
- Dimensions: 24 x 8.5 x 26
- Weight: 2.9kg

Application:

This machine suitable for packaging special equipment in the express delivery industry, chemical building materials, fertilizers, grain, post and telecommunications, ports, dock warehouses and bag making industries. It is suitable for sewing various woven bags, mesh bags, sacks, canvas bags, nylon bags, geotextile bags, and film bags

Made in China
