

Multifunctional Food Drying Machine

Model: ST-02

Description:

Energy saving, low energy consumption and can dry vegetables, fruits, beans, meat, fish, bread, mushrooms and so on. With hot winds to dry them out, no pigment, adhesive or flavor is added. At the same time, the feeding and keeping time is longer. It is convenient to make natural foods with rich flavor for an individual or family. It is more easy to maintain and more flavor (dried fruits differ from fresh fruit in that they are more nutrient-dense and vitamins & minerals are better locked inside). The temperature will not exceed 100°C, so it will not break the feeding food. With adjustable temperature design, you can set different temperature according to different foods to reach the best.

Features:

- Sixteen layers capacity, more ingredients can be dried.
- 301 stainless steel, safe and healthy.
- Simple operation, novice learns in one minute, the temperature is adjustable.
- New machine to solve a variety of food drying problems.
- Upgraded with visible toughened glass window.
- 96L Large capacity.
- Can dry vegetables, dried meat, fruit, soluble beans, flower tea, yogurt, seafood, etc.

Technical Parameters:

- Voltage: 220V / 110V
- Max timing: 15 hours
- Setting temperature: 40 ° C-90 ° C
- Work noise: 45dB
- Material: stainless steel
- Power: 1000 W
- Size: 600mm * 550mm * 420mm
- Mesh size: 396 * 396mm, mash gap distance 8mm, up down layer distance 30mm
- Layered network: 16
- Net Weight: 23.5 Kg
