

Universal Remote Model: MR-210B

Description:

MR-210 multi-function controller, is specially designed for imported TV sets and VCR or VCD. It looks beautiful and comfortable. It can control more than 15 different brands of various world-famous TV and VCR, such as National, Sony, Hitachi, Toshiba, Sharp, Mitsubishi, Sanyo, JVC, NEC, etc.

How to use the controller:

It is very easy to set the MR-210. Press TV power button and the code button standing for the brand of your TV set simultaneously and release. Press VCR or VCD button and the code button standing for the brand of your VCR or VCD simultaneously and release; that is all the work you have to do for setting MR-210. The functions of MR-210 can take place of those of your original controller.

Installation:

Press power and code buttons simultaneously. The codes are on the buttons on panel.
