RCCB CHECKER

Model: RCB-220V Model: RCB-110V

	FEATURES				
*	It is used for quick checking of the pin assignment of a safety socket as well as for				
	verification of the RCCB with the 5 rated tripping current settings of 10 mA,				
	30 mA, 100 mA, 300 mA and 500 mA.				
*	Phase detection and phase inversion.				
*	Indication of plug assignment via 3 LEDs.				
*	Display of tripping pulse current for residual currents.				
*	Operated without battery, direct power supply from the mains socket to be tested.				
*	Handy & compact ABS plastic housing case.
