

Led Module LMS 5050 - 5 White

Model:HHX-385WF-50

Features:

- Comparable visual impact to Neon
- IP68 for outdoor use and completely sealed to be environmentally robust
- Small and flexible to fit into small and hard-to-illuminate spaces Simple, fast and reliable installation
- Longer useful life - potential to exceed 5 years of useful life
- Color: White
- Safe operation: 12V DC voltage source and non-flammable material
- Reduced energy consumption, actually consumes 40% less power compare to similar neon system.
- LS-SMD-5050 HHX-385-50: Waterproof 5050 smd module led light, it's high brightness 5050 smd with 5 the waterproof grade is IP65, it's widely used for the outdoor signs, the backlighting of the channel letters etc. Its mini square led module, so it's very suitable for special signs.

Specifications:

- Viewing angle: 140°
- Luminance flux:20-25 LM
- Color Temperature:6500K
- LED Qty / Module: 5 Led
- Quantity/String: 20 pieces/string
- Lifespan: 80,000 H
- Working voltage: 12V
- Power: 25.8W
- Current: 2.10A
- LightSource:Led SMD 5050
- Color: White
- Working Temperature: -20°C ~ +50°C
- IP grade: IP65
- Dimensions: 3.5 x 3.5 cm

Applications:

- Electronic signs
- Commercial advertising signs
- Channel letters
- LED light strips
- Automotive lighting
- Festival decoration
- Advertisement light-box
