

Sony Car Speaker 4inch

Model: XS-FB1030

Description:

The small but powerful 2-Way Coaxial loudspeaker XS-FB1030 surpass your expectations. The combination of MRC-cone woofer, dome and super tweeter provides for a clear, balanced sound in the entire frequency range. Space-saving design and minimum size for easier installation. Connect directly to Sony's perfect matching head unit with Mega Bass circuitry. Your system will sound like nothing else with deep roaring bass!

Features:

- MRC woofer for a deep, rich bass playback
- Experience the maximum load-carrying capacity
- Super tweeter for still higher frequencies
- Ideal for control equipment from Sony with Mega Bass function
- Space-saving and easy to install design
