

# Multi-Function Satellite Finder (TFT-LCD 7")

**Model: JTY-907**

## **Description:**

7inch multi-function Portable Satellite Finder With 7" Wide Screen is a tailored special apparatus designed for professionals to install of satellite TV receiving and monitoring system .It is a high-tech electronic product that sets satellite television receiver sets, LCD liquid crystal image display , TFT LCD high-brightness signal quality image parameters display and high-performance lithium polymer battery as a whole, according to actual needs of the installation of satellite engineering. The clamshell-style boot machines are portable and user-friendly ,which are used to install the satellite TV reception system and adjust signal for engineer and technical personnel .

7-inch TFT LCD; both in Chinese / English / Thailand / Laotian / Vietnam / Russian / Indonesia menu; remote control ;built-in lithium polymer batteries, an external power source, working for two hours or more; AV input & output function, signal quality displayed through the LCD Screen; the unique satellite finder guidance function and built-in games;small size,light weight and easy to carry;

## **Specification:**

- \*Display Screen: TFT LCD 7 inch (178mm)
- \*Dot Resolution: 336960 pixels
- \*Color system: PAL-4.43 NTSC-3.58
- \*Contrast: 250:1
- \*Brightness: 300cd/m<sup>2</sup>
- \*Input voltage: DC 8.5V 2A
- \*Viewing Angle : 45/60(U/D); 45/45(L/R)
- \*Input impedance: 75  $\Omega$  (Type F)
- \*Input frequency : 950-2150 MHz
- \*Input level: -65 ~ -25dBm
- \*Threshold: 4.1 dB
- \*Lithium batteries: DC 7.4V 3000mAh (built-in)
- \*DIMENSION : 205\*165\*45 mm
- \* Weight: 800g (Built battery )

## **Accessories:**

DC 8.5V Home Power , Bag, Operation Manual , Remote control  
(Optional), Car Power (Optional)

Made in China
