

3-Pole Stake Kit

Model:ES-162P3

Description:

The Fluke ES-162P3 three-pole stake kit is used with Fluke 1623 and Fluke 1625 ground earth testers to perform 3-pole fall-of-potential testing. The fall-of-potential method measures the ability of the earth ground system or individual electrode to dissipate energy from the site. This five-piece kit includes three stakes, one 50m cable reel of wire, and one 25m cable reel of wire.

What's in the Box?

- (3) Stakes
- (1) 50m cable reel of wire
- (1) 25m cable reel of wire
