

ALTERA USB BYTE BLASTER

Specifications:

- ALTERA USB ByteBlaster
- USB interface
- FPGA/CPLD download
- SignalTap II embedded logic analyzer
- NIOS II debug

Features:

- Compatible with altera usb blaster
- Support all series of altera device.
- CPLD: MAX3000, MAX7000, MAX9000, MAXII...
- FPGA: Stratix, StratixII, StratixIII, StratixIV, Cyclone, CycloneII, CycloneIII, CycloneIV, ACES1K, APEX20k, FLEX10K..
- Active serial configuration device: EPCS1, EPCS4, EPCS16, EPCS64...
- Enhanced configuration device: EPC1, EPC4...
- Support AS, PS and JTAG mode
- Support SignalTap II embeded logic analyzer
- Support NIOS II debug* USB interface
- Support Quartus II 4.0 and above version
- Support Windows XP, windows Vista, Windows 7 and linux.

Package List:

- USB BLASTER Programmer x1
- 10-Pin JTAG Connection Cable x1
- USB cable x1
