

Led SMD 5730 White

Specifications:

- Type: SMD LED
- Emitting Color: White
- Power: 0.5W
- Color Temperature: 4000-4500K
- Voltage: 2.9-3.4V
- Luminous Flux(lm): 50-60lm
- Viewing Angle(°): 120
- Operating Temperature(°C): -40 - +100
- Size: 5.7*3.0*0.9mm
- Life: 50,000h
- Current: 150mA
- Color: White
- Chip: Epistar

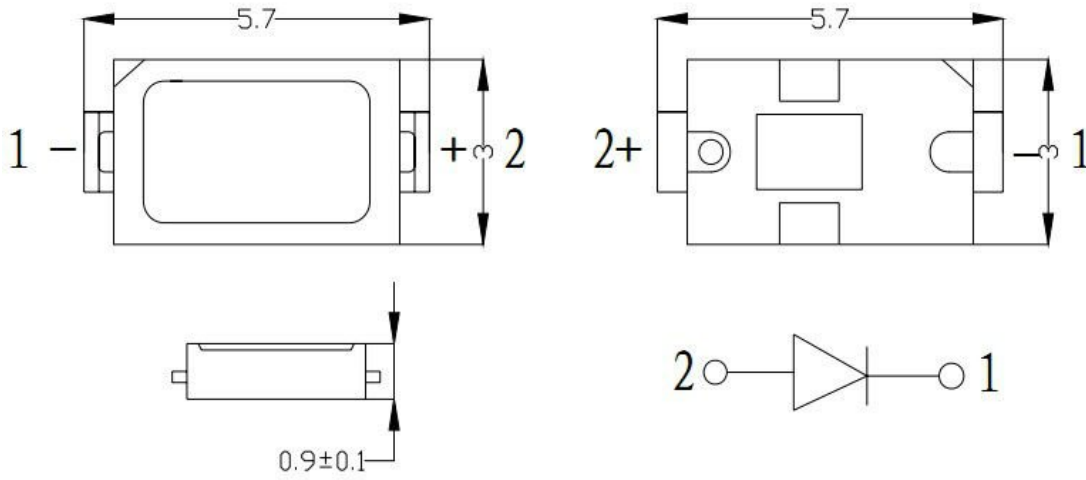

Applications:

1. Optical indicator
2. Indoor display
3. Interior automotive lighting
4. Backlight for LCD, switch and Symbol, display
5. Light pipe application
6. General use by 5730

Advantages:

1. 50,000h life time,5-6 year guarantee
2. 3000h in 0% decay when tested 5730 led

Mechanical Dimensions : Unit (mm)

Made in China
