

3D Printer ABS Gold 3mm

Specifications:

- 3D printer material ABS filaments 3mm 1kg plastic cable
- High density, good toughness ABS material is good for printing larger model
- Perfect design can fit for different temperature environment
- Can be used for most kinds of 3D printers
- Different colors of ABS rubber for you to print colorful objects
- Environment-friendly ABS, non-toxic tasteless when printing
- Made of original new material, more stable
- No bubbles
- Suitable for MakerBot / Reprap / Mendel and other commonly used models
- Recommended Extrusion Temperature: 230°C
- Diameter: 3mm
- Color: Gold
- Deviation: $\pm 0.1\text{mm}$
- Weight: 1kg
- Dimensions: 18cm x 18cm x 9cm

The Difference between the 2 filaments ABS and PLA:

Operation What are you using your 3Doodler for?	ABS	PLA
Drawing upwards Straight up in the air, or spirals	✓	✗
Building structures Freehand 3Doodling, plastic on plastic	✓	✓
Creating bendable art Need some flex in your 3Doodle?	✓	✗
3Doodling on paper and then peeling For creating amazing 3Doodles from stencils	✓	✗
3Doodling on paper for long lasting stick Want your 3Doodle to stay stuck to that paper?	✗	✓
3Doodling on glass or metallic surfaces Time to get mixed medium! Works on ceramics too!	✗	✓
Creating translucent art Creating some semi-transparent 3Doodles?	✗	✓
Variety of colours PLA has over 34+ colors including translucent colors	✗	✓
Welding plastics together For joining or welding plastic objects or pieces together	✓	✗
3Doodling on clothing Add emblems/patterns, or Iron Doodles onto your threads	✗	✓
Mould and stretch post-Doodling Manipulate your plastic for a few seconds after Doodling	✗	✓
