

Hydraulic Crimping Tool

Model:YQK-300

Description:

This Product can automatically adjust pressure in all directions. It can contact and press steadily with small resistance and high work efficiency. This is an ideal tool for contact type copper and lead terminals and connection of union pipes used in electric cable conductors and in other the electric power operations.

Specifications:

Model	YQK-300
Max. Pressure(T)	13
Max. Stroke(mm)	18
Crimping Range(mm ²)	10-300
Size of Standard Dies(mm ²)	16, 25, 35, 50, 70, 95, 120, 150, 185, 240, 300
Crimp Pattern	Hexagonal Type
Weight (Kg)	6.8

Made in China
