

Led Tube T8 120cm 220V 20W White

Features:

- No flash. Instant start
- No radio frequency interference
- Anti-electromagnetic interference
- Fast start, no flicker, no different sound
- LED design integration of a special perspective
- Mercury and lead and other hazardous substances.
- Constant current, high efficiency (90%) with a new thermal protection within the drive, you can work under unstable voltage
- Special circuit design, each LED can be separate pieces of work, avoiding the damage of single LED lamp working correctly

Specifications:

Product name	T8 Led Tube Light
Model Number	T8 - LED120cm
Power	20W
Led Quantity	96pcs
Led Type	SMD2835
Current	0.08A
Working Hours	30,000 H
AC Voltage	220V
Lumen	2000LM
Color temperature	6500K White
Beam Angle	120°
IP	44
Frequency	50-60HZ
Material	Aluminum + PC

Applications:

- Use(living rooms, bedrooms, kitchens, washrooms)
- Schools, Universities, Hospitals, Hotels, Restaurant
- Conference, Meeting rooms, Show rooms, Showcases
- Commercial Complexes
- Factories, Plants, Warehouses, Offices, School
- Super-markets, Department Stores, Storages Roads, Streets, etc.

Made in China
